High Performance
Video System

Picture

High-Performance Video System with advanced circuitry to deliver outstanding picture performance, with up to 675 lines of horizontal resolution*

Sound

Broadcast Stereo Sound and SAP for rich, stereo sound or SAP (secondary audio program) where available

Sound Logic™ Audio Leveler eliminates sound blasts during commercial breaks, maintaining a more consistent overall audio level

Volume Limiter and Initial Volume establish maximum and consistent initial volume settings each time television is turned on

Commercial Features

IR Cloning Capability allows rapid duplication of configuration information between televisions for ease of installation and maintenance. Note: initial set-up data must be transferred from an RCA Commercial television equipped with a DSCI port

181-Channel Tuning for a wide range of options using off-air, satellite/cable or internally generated program signals**

Channel-Guide with One-Button Access for an on-screen listing of all available channels and their identification labels

8-Character Channel Labeling allows for on-screen display of both network affiliation and channel number

User Remote with TV1/TV2 Capability allows simultaneous control of two monitors in the same room

"Energy Star" Certification saves energy costs

Configuration Menus with Non-Volatile Memory for site-specific specifications and limitations on how televisions can be operated and retained, even when power is lost

Selectable Weak Signal Muting mutes audio, blanks video and provides an on-screen message if signal is weak or lost

Selectable Clock and Scheduler with automatic time set allows TV signal to automatically set time (where available); scheduled turn on/off events can be one-time or recurring

Selectable Automatic Turn-off permits television to turn off automatically after a period of inactivity

Front Panel Lockout prevents tampering

Commercial Cabinet with Spill-Resistant Back prevents equipment damage and provides integral mounting ability

Decommercialization facilitates after-market resale and allows television investment recovery at the end of service life

Specifications

Lines of Horizontal Resolution: 675*

Inputs: Audio: right & left/monaural
Video: CVBS

Power Cord: 6-foot, 2-prong

Power Requirements: 120VAC (+/-)10%, 60Hz

*** This television receiver provides display of television closed-captioning in accordance with §15.119 of the FCC rules. This television does not support color attributes of television closed-captioning.

Optional Accessories

CBX203 ClonePRO™ Remote

This unique accessory developed by RCA significantly reduces installation and programming time, allowing you to program one television and then transfer the same data to all similar sets in just seconds. The more RCA televisions you install, the more efficiency you gain.

Master Remote

The RCA Master Remote maintains control of all setup menus, including audio and video functions.
